A TEXTBOOK ON RAILROADING

RAILWAY ORGANIZATION AND WORKING

Edited by
ERNEST R. DEWSNUP

A score of prominent railroad men have contributed to this volume the condensed results of their experience.

The practical workings of the various departments—traffic, auditing, operating, etc.—are described in vigorous, non-technical language. It is the only manual of the railroad business of moderate size and price.

THE CONSTRUCTIVE BIBLE STUDIES

This great series of Sunday-school textbooks is advancing steadily toward completion. Already enough books have been issued to start any school on the new method. The system is rapidly finding its way into the best schools throughout this country, and has recently been introduced in England. The following are some of the distinctive merits of these books:

- 1 They are in the fullest sense *educative*, since they develop individual thought and research.
- 2 They train the pupil in the intelligent use of the Bible itself.
- 3 They are interesting to both teacher and pupil.
- 4 They win the pupil's respect, since they are as carefully and as scientifically prepared as the best secular textbooks.
- 5 At the same time they do not sacrifice the spirit of religious study to mere knowledge. The tone is that of noble consecration to the search for truth.
- 6 Issued in book form, they have a lasting effect that cannot be secured from leaflets.
- 7 They are *practical*, as the experience of very many teachers has proved.

The series, when all the books have been issued, will provide a complete curriculum for the graded Sunday school. The following books are now ready:

THE NEW VISIBLE

FOX TYPEWRITER

A Record Never Equalled

Perfect Visible Writing and the Durability of the Basket Type Machine

Whether you are interested in the mechanical features of a typewriter or not, if you are buying typewriters you are most vitally concerned in two things.

First, your typewriter should write in sight. It's reasonable that if you can see what you are doing, you can do more than when your work is hidden from view.

Second, your typewriter should be durable, so you will receive proper value for your money.

Previous to the advent of The Fox Visible it was impossible to build a Visible Typewriter with the wearing qualities of the old style machine.

Here is the Reason The "basket type" machines, such as the old style Fox, the Remington, and the Smith-Prémier, have had an "assembling surface" of eighteen inches in which to assemble their type bar hangers. This allowed the use of a wide hanger and accounts for the recognized durability of such machines. In building other visible typewriters than the Fox Visible this "assembling surface" HAD TO BE SACRIFICED, and instead of eighteen inches such machines have four and one-half inches and a type bar hanger 35-1000 of an inch wide,

On the Fox Visible the Assembling Surface is 16 1-2 inches, and the Type Bar Hanger 7-16 of an inch wide. This admits of adjustment and means durability. With a narrow type bar it is a mechanical impossibility to secure permanent alignment and durability.

Just ordinary business economy demands you investigate the Fox Visible before you buy. We make it easy for you. Send for descriptive literature.

LIQUID GRANITE FOR FLOORS

If you are having any trouble with the finish on your floors, or are not entirely pleased with their appearance, it is certain you have not used LIQUID GRANITE, the finest floor finish ever introduced.

It makes a finish so tough that, although the wood will dent under a blow, the finish will not crack or turn white. This is the highest achievement yet attained in a Floor Finish, and is not likely to be improved upon.

Finished samples of wood and instructive pamphlet on the care of natural wood floors sent free for the asking.

Bausch & Lomb LANTERN-D

Lecturers who have used or seen in use the usual type of projection lantern, with its stiff working adjustments, lenses out of center, slide-cracking condensers and lack of illuminating power, will appreciate this new lantern with its scientifically constructed optical system, powerful and accurately operated lamp, cooling cell to prevent cracking slides and mechanically perfect adjustments throughout.

The further fact that Lantern-D can be converted into a combined microscope and slide projector and a projector for opaque objects is more evidence of its uniqueness and desirability for school and laboratory work. Catalog free.

SEX AND SOCIETY

STUDIES IN THE SOCIAL PSYCHOLOGY OF SEX

By WILLIAM I. THOMAS

Associate Professor of Sociology in the
University of Chicago

320 pages, 12mo, cloth; net \$1.50, postpaid \$1.65

WHILE this subject is one of the most important and fascinating in the field of knowledge, it is recognized that it occupies an unsettled and unscientific position among social-psychological questions. There is little doubt that these studies do more than anything yet published to place the question on a scientific basis.

The comparative method and the genetic standpoint have been used, and the analysis of the historical relation of woman to society and of the social changes which have influenced her status make it possible in the last chapters to discriminate between the points in the character of woman which are innate and those which are adventitious in their character, and to suggest the means by which she may realize herself more completely and naturally. The studies are based both on anthropological-ethnological materials and on personal studies of the writer among various strata of society, and the subject has not before had so frank and at the same time so scientific a handling.

The results presented are a notable contribution, not only to sociological, but to educational theory. The anthropological and ethnological materials used will be new to the general reader, and the book will be of particular interest to intelligent women.
